

HEALTH FREEDOM NEWS®

Advertise in Health Freedom News, the official publication of the National Health Federation, established in 1955.

Established in 1955, the National Health Federation is a non-profit, international consumer-education, health-freedom organization working to protect individuals' rights to choose to consume healthy food, take supplements, and use alternative therapies without government restrictions. With consumer members all over the World, and a Board of Governors and Advisory Board containing representatives from seven different countries, the Federation is unique as being the only consumer health-freedom organization in the World to enjoy official observer status (able to speak out for health freedom) at meetings of the Codex Alimentarius Commission, the highest international body on food standards.
